WHAT IS Healthchek?

Healthchek is just another term for children's Medicaid in Ohio. Children have more benefits in Medicaid than adults to make sure they grow up healthy.

ARE THE SCREENINGS Important?

Yes. Regular check-ups and early care can help you and your child:

Stay healthy during growth

Find problems that can make it hard to learn

HOW DO I Get Started?

One of the following will get you on the right path to keeping your child healthy:

Make an appointment
with your child's doctor for services

Contact the Healthchek coordinator
at the job & family services office

How Often DO I NEED TO SCHEDULE SCREENINGS?

Getting Healthchek screenings at appropriate times helps ensure your child stays healthy. As a parent, you know your child best and should talk to your child's doctor to determine when is most appropriate to make check-up appointments.

Don't Wait if You're Concerned.

If your child is not meeting the milestones for his/her age, or if you think there could be a problem with the way your child plays, learns, speaks, acts, and moves—share the concerns and seek your doctor's advice.
